

The High Potential Fiddler

Every now and then we had to clean our little roof
Every now and then we had to clean our little roof
I organized a ladder to bring my wife on top
Her cleaning is a much better - she got a flip - I got a flop

I'll give you three guesses I left her on the roof
It's very well for you to talk, but I went for a walk

The other day in need to go to a shopping mall
The other day in need to go to a shopping mall
After spending lots of time I met a friend of mine
We straightly went into the pub to have some pints

I'll give you three guesses I left her in that mall
It's very well for you to talk but I went for a walk

I'm a high potential, hope that you agree
Don't get your knickers in a twist
Listen one, two, three I'm a high potential, I, myself and me
I'm a high potential, hope that you agree
Don't get your knickers in a twist
Listen one, two, three I'm a high potential, I, myself and me
I'm a high potential, hope that you agree
Don't get your knickers in a twist
Listen one, two, three I'm a high potential, I, myself and me
