

Return To Sender

God bless my children - God bless my wife
And God may bless all the good guys ever met in my life
Bad things in life the universe might tender hear my advice
Return to sender

My Job is hard and exhausting sometimes dangerous sometimes shallow
Sometimes hard big bullshit then I'm feeling like a willow
Some frinds doing porich 'cause they never could stop needling
One allways showed his chopper 'cause his balls were allways bursting

God bless my children - God bless my wife
And God may bless all the good guys ever met in my life
And all bad things in life the universe might tender hear my advice
Return to sender

If money grew on trees living would be quite easy
And if you think you'd have a bad hair day now hear my call and - bite me
You'd better well better – do what I say
No no bloody way am I – doing that way

God bless my children - God bless my wife
And God may bless all the good guys ever met in my life
Bad things in life the universe might tender hear my advice
